

MAKING THE CONNECTIONS

UTILITIES AND SERVICES IN TRAVIS, WILLIAMSON AND HAYS COUNTIES

A note about electrical services in Texas: In 1999, the Texas Legislature passed a deregulation law that made it possible for consumers in most parts of Texas to choose their own electric company. Some areas, such as municipalities and cooperatives, were not required to deregulate, so customers in those areas may not have electric choice. You should choose the provider that is best for your electric needs. For a side by side comparison of companies and services please visit www.powertochoose.org.

Note: This information is provided to you by Texas American Title as a general list of services offered and is not comprehensive. Many areas of Travis, Williamson and Hays counties have MUDs and may have different services that are offered in those areas, and not all companies service every zipcode within a county. Please check with your local entities for current service offerings in your area.
